④ ABOUT ME

My passion for illustration started during my childhood as I grew up in an advertising industry environment. I slowly discovered my interest in graphic design during my high school years. I specialize in graphic design, with a main focus in illustration, photography, and digital software productions. My works are constantly involved with a strong expression of culture and history as I enjoy travelling. Besides design, I explore other areas such as music and culinary and fashion. These interests allows me to explore the possibilities of graphic design.

⑤ SOFTWARE

DESIGN
Adobe Photoshop
Adobe Illustrator
Adobe Indesign

DOCUMENT
Microsoft Office
